Rosie's Walk

Is the largest fundraising event held for Rosie's Helping Hands. Since the first Walk in 2002 it has grown into a popular community event, raising in total over £210,000 enabling the charity to help many children and young people's voluntary groups in and around Walsall.

Being the last walk we aim to end on a high by raising £15,000 to help the children's groups supported by the charity to purchase items that make a real difference to these groups. such as:-

New sports equipment, sensory toys, activities during school holidays, educational trips and lots more.

Message from Rosie's Parents

We wish to express our heartfelt thanks to everyone who has supported and made both Rosie's Walk and the charity so successful. The charity has achieved far more than we ever anticipated. Next year will be 16 years since we lost our beloved daughter in a random and motiveless knife attack. She was 16 years old when she died. Through Rosie's Helping Hands we have been able to keep Rosie's memory alive and have helped many children and young people. The charity has also been a very positive focus for Sean and I too. Fundraising will continue into 2017 to ensure that many children and young people's projects are helped as possible, before bringing the charity to a close in 2017.

We very much hope you will join us on 17th July to help celebrate what your support and donations have achieved over the years'.

Karen & Sean Ross
